Year 11 Examinations

Information for Students,
Parents and Carers for the
Summer 2024 exams

A message from Miss Wood, Assistant Headteacher and Mr Kevern, Head of Year 11

We are excited to be helping the students through their final months here at Looe before heading off into Further Education.

Every student has the potential to achieve amazing grades at the end of Year 11, however, we know that they will need help along the way. Students will have access to a variety of revision support via the tutor programme and their class teachers. They will also have access to mental health workshops and assemblies focusing on coping with stress, as well as pastoral support. It is crucial that students are supported to attend 100% of the time to ensure they learn 100% of the content that will come up in their exams. Above everything, we believe all students should be able to access their full potential with the support of the people around them to ensure they can be the very best they can be.

Mental Health Support

We know that Year 11 is a stressful time for students however, it shouldn't go unnoticed that it is also a stressful time for parents and carers as well, often not knowing how to support your child during this time.

Here are some useful documents and links that can support your child with their mental health but also provide ideas of what you can do at home to help.
