Year 7
Spring 1

Be the
BEST
you can be

Need to KNOW
LOOE COMMUNITY ACADEMY

To become an **expert learner** you need to have the right mindset and understand the **'Power of YET'**!

Check out Austin's butterfly picture below and learn how he seeks feedback to improve his work to achieve the most amazing results!

The Learning Pit is a picture to help you remember that you are constantly going to be challenged and confused when you learn something new, but it's about knowing what to do in order to overcome these challenges to get to the other side of the pit!

1

Magnificent Metacognition

Plan

Is this similar to a previous task?
What do I want to achieve?
What should I do first?

Monitor

Am I on the right track?
What can I do differently?
How can I ask for help?

Evaluate

What worked well?
What could I have done better?
Can I apply this to other situations?

2

Marvellous Memory

My memory and learning improves when I learn through spaced, retrieval, interleaved, elaborated, and use of concrete examples in practice.

I must use the best learning strategies above when using my 'Need to Know' to complete pre and post learning tasks.

During lessons I am a responsible Lead Learner, I teach my self and peers through mini tests, flashcards and look/cover/write/check/review, this help me and my peers learn quickly.

3

Love My Learning

I have a growth mindset and believe I can be as SMART as I want to be! My brain is a muscle and it will growth bigger with the amount of effort I put into practice.

I seek feedback and enjoy acting on it. I see 'EBI' and 'T' from my teachers / peers as opportunities to improve, by acting on feedback I experience success as a learner.

I can be my own teacher and can articulate what I am learning and why. I know my mastery goals and I seek errors as opportunities. I aspire to challenges and have no fear of failure!

4

Literacy for Life

Every hour I read is an hour improving my writing. Time is worth investing in my books and Accelerated Reader.

I always check my grammar, spelling and punctuation, this will help me to achieve the highest SPAG marks in my GCSE exams.

Practicing my reading skills and literacy will improve choice in job/career prospects. Success is when preparation makes opportunity and when practice makes permanent!

I NEED TO KNOW:

How to look after your mental health.

This includes how you can build resilience as a student, different types of mental health and ways you can manage and improve it.

Psychological resilience – a person’s ability to adapt to stressful situations and tough times.

Mental health – like physical health, a measure of how well a person is, just in their mind instead of their body.

Depression – feeling of low mood for a period of time, leading to hopelessness and loss of pleasure in life

Anger Management – The act of taking control over our anger and managing this emotion in a constructive way.

Adrenaline - the chemicals in our body which can lead to feeling angry

Fight or Flight – The reaction in our bodies when we feel a surge of adrenaline; we want to fight or to run away.

I NEED TO KNOW:

What are the ingredients of a horror story? What writing skills do I need to improve and use in my own horror story?

WEEK 1	<u>INGREDIENTS OF A HORROR STORY :</u> What types of horror stories do you already know? You can also think about what horror films you may have seen. What makes them scary? Discuss your favourite horror stories with your friends, family or carers. Create a mind map of all the horror films or books you know.
WEEK 2	<u>Character, setting and pathetic fallacy</u> Think about characters you have remembered from your own reading. What made them memorable? What would be a good setting for a horror story? Try to think about a place that other people wouldn't think of. Create a detailed drawing of a character or setting which you have read about or you can imagine. What is pathetic fallacy? Look up the definition.
WEEK 3	<u>Senses:</u> What are the five senses? Why is it useful to use the 5 senses when writing a description? Look at a section of your AR /reading book. Identify the senses the writer has used.
WEEK 4	<u>Punctuation:</u> How many different types of punctuation can you use accurately? Revise the punctuation you do not feel confident with or your teacher has set as a target. Use your book and the internet to help you. Create 10 sentences which show off the different types of punctuation you can use.
WEEK 5	<u>Paragraphs:</u> Do you know the rules of how to paragraph? Find out what TiP ToP stands for; this will help you to remember when to paragraph.
WEEK 6	<u>Reflection:</u> What progress have you made with your writing this term? What have you learned? How could you improve your writing next term? Are there any areas that you still don't feel confident about? Can you revise these areas using your book or the internet?

I NEED TO KNOW: Accurately recall facts, terminology and definitions.

Maths Command Words

Estimate
Don't work out exactly!
Round the numbers to one significant figure first.
Estimate 4.7×6.2
Answer: $5 \times 6 = 30$

Explain
You must state why.

Work out
A written or mental calculation is needed.
Work out 6^2
Answer: $6 \times 6 = 36$

Simplify
Collect like terms together
Simplify $e + 7e$
Answer: $8e$

Give your answer in its simplest form
Cancelling of a fraction or ratio is needed.
 $12 : 15$
simplified is $4 : 5$

Calculate
You will need to do a sum either with or without your calculator.

Expand
Multiply out the brackets
Expand $4(3x - 2)$
Answer: $12x - 8$

You must show your working
If you don't show your working you won't get ALL the marks!

Describe fully
Usually with transformations:
Translation by a vector (2 marks)
Enlargement of a scale factor about a point (3 marks)
Reflection in a mirror line (2 marks)
Rotation through an angle about a point (3 marks)

Solve
Find the value of the variable in the question.
Solve: $3x = 12$
Answer: $x = 4$

Factorise
To find factors and put brackets in.
Factorise $6x + 10x^2$
Answer: $2x(3 + 5x)$

Measure
Use a ruler or protractor to accurately measure lines or angles.

Sketch
An accurate drawing is not needed; freehand will do!

Construct, using ruler and compasses
Use your ruler and pair of compasses to make an accurate drawing.

Diagram NOT accurately drawn
Don't measure angles or sides.

I NEED TO KNOW:

- Order of hierarchy within body systems
- Describe different organ systems
- How to use the correct terminology to describe atoms, elements and compounds
- Compare physical and chemical changes
- Properties of light and sound

<https://www.bbc.co.uk/bitesize/topics/znyycdm/articles/zrp3ydm>

<https://www.bbc.co.uk/bitesize/topics/zstp34j>

1. Learn the differences between atoms, elements and compounds

<p>Element</p> <p>Atoms of the element argon exist on their own.</p>	<p>Element</p> <p>Oxygen atoms join in pairs. Argon and oxygen are elements</p>
<p>Compound</p> <p>Carbon and oxygen atoms are joined together in carbon dioxide.</p>	<p>Mixture</p> <p>Air is a mixture of elements and compounds</p>

2. The properties of light and sound

3. The structure and function of different organ systems

Organ system	Main organs	Function
Circulatory	Heart, veins, arteries	Transports substances in the blood around the body
Respiratory	Lungs	Takes in oxygen, removes carbon dioxide
Digestive	Stomach and intestines	Breaks down food, absorbs nutrients
Reproductive	Uterus, vagina. Penis, testes	Creates offspring

4. Describe the order of hierarchy in living things

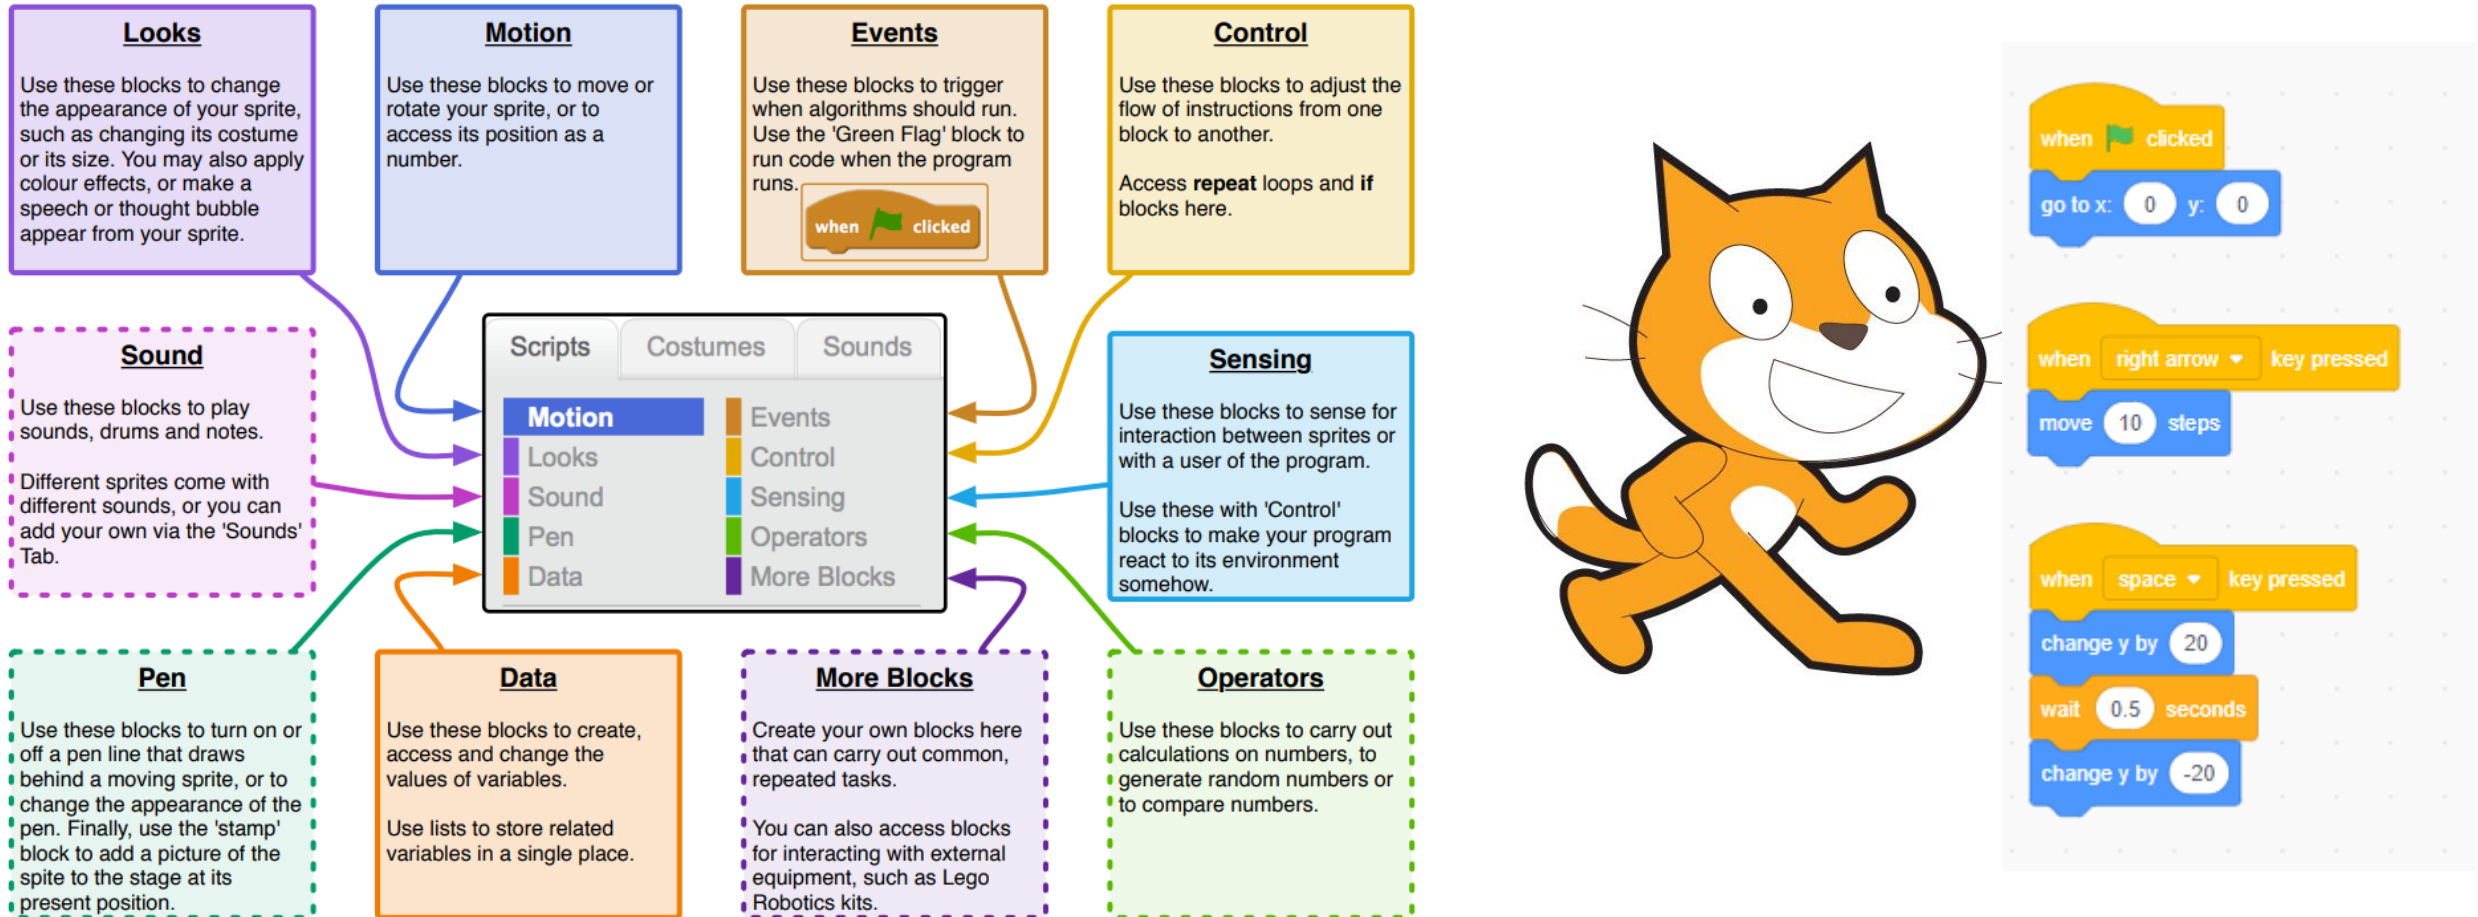

CHEMICAL CHANGE vs PHYSICAL CHANGE

Combustion	Rotting	Melting	Shredding
Rusting	Digestion	Boiling	Chopping

I NEED TO KNOW:

How to code using Kodu blocks. Use the crib sheet below to help you remember the key information.

I NEED TO KNOW:

Different techniques used within Fashion & Textiles.

Anthony Burrill

Graphic artist Anthony Burrill combines a knack for simplicity that packs a punch with analogue craft skills and powerful, positive messages. Burrill frequently collaborates with other forward-thinking creatives across disciplines spanning music, architecture, curation, education and more; pushing his traditional discipline of choice, letterpress printing, into bold new territories.

Words, gentle humour, no-nonsense communication and people are at the heart of Burrill's practice and his distinctive brand of upbeat messaging: its core DNA is one created through a longstanding passion for creativity without limitations.

Batik

Batik is an Indonesian technique of wax-resist dyeing applied to the whole cloth.

This technique originated from the island of Java, Indonesia. Batik is made either by drawing dots and lines of the resist with a spouted tool called a canting, or by printing the resist with a copper stamp called a cap.

The applied wax resists dyes and therefore allows the artisan to colour selectively by soaking the cloth in one colour, removing the wax with boiling water, and repeating if multiple colours are desired.

Laser Cutting

Laser cutting is a manufacturing process that uses a high-powered laser beam to cut through various materials with exceptional precision. It is commonly used for cutting materials such as metal, wood, plastic, fabric, acrylic, and more.

Laser cutting offers several advantages over traditional cutting methods. It provides high precision, accuracy, and intricate detailing. The non-contact nature of the process minimizes material distortion and reduces the risk of damage. Laser cutting is also fast, efficient, and can easily accommodate changes in designs.

Hemming

Hemming is a sewing technique used to finish the edges of fabric to prevent unraveling and create a neat, clean edge. It involves folding the raw edge of the fabric over and sewing it in place.

Hemming is a crucial step in garment construction. It is used to finish the hems of skirts, dresses, trousers, sleeves, and other clothing items. The type of hem used can vary depending on the fabric weight, garment style, and desired look.

There are several types of hems that can be used depending on the desired finish and fabric type. Common types include single-fold hem, double-fold hem, rolled hem, and bias hem.

MATERIAL	DEFINITION
Pine	A light coloured softwood with an attractive grain that come from an evergreen tree
Hardboard	Thin board made from wood pulp that is used on the bottom of boxes, drawers and the back of cupboards
Medium Density Fibreboard (MDF)	Board also made from wood pulp than can be thin but also come in a wide variety of other thicknesses
Acrylic	A thermoplastic used for the lid of our boxes
PVA	The best glue to use when gluing wood to wood.

MACHINERY	DESCRIPTION
Fret Saw	An electronic saw
Disk sander	A disc that rotates with glass paper fixed onto the front
Dust extractor	A large unit that help remove dust that has been created by sanding
Laser cutter	A machine that uses a laser to cut and engrave onto materials

KEY WORD	DEFINITION
Millimetres	A small unit of measurement which enables you to be very accurate
Measurements	A distance between two points
Try square	A tool used to mark a right angle
Coping saw	A saw with a thin blade that allows you to cut curves

Use this sheet to prepare for each lesson and understand the key terminology that you will be learning throughout this topic beforehand. It is recommended that you prepare yourself for each lesson by looking over the information below and develop your skills beforehand, so you're prepared. You can also read about the inspirations and influences for this topic to get more information. The project will develop your knowledge in the key concepts and skills needed for art to take you through to key stage 4 and beyond.

KEY WORDS	
SHAPE	An element of art that is two-dimensional, flat, or limited to height and width.
FORM	Connotes something that is three-dimensional and encloses volume, having length, width, and height.
SCALE	The relative size of something.
PROPORTION	Ensuring the correct size of objects/things in a picture in comparison to each other.
HOT COLOURS	Hot colours are those that give the feeling of warmth, such as red, orange, and yellow. These colours are often associated with fire, the sun, and heat.
COLD COLOURS	Cold colours are those that give the feeling of coolness, such as blue, green, and pale purple. These colours are often associated with water, grass, and sky.
TEXTURE	Texture in art concerns the surface quality of a piece of work. In three-dimensional artwork, the term refers to how the piece feels when it's touched. In paintings and other two-dimensional artwork, texture invokes the visual 'feeling' the piece gives off.
BLENDING	Blending is the process of fusing two colours together so that the paint transitions from one colour to another or combines to create a new colour.
STILL LIFE	A painting or drawing of an arrangement of objects, typically including fruit and flowers and objects contrasting with these in texture, such as bowls and glassware.
TERTIARY COLOURS	The resulting colour formed when an equal amount of a primary and a secondary colour are mixed.
COLOUR WHEEL	A circle with different coloured sections used to show the relationship between colours.

Use this sheet to understand the key terminology that you will be learning. It is recommended that you prepare yourself for each lesson by looking over the information below. The project will develop your skills using the key areas of – EXPLORE, EXPRESS and EVALUATE.

I NEED TO KNOW:

KEY WORDS & CONCEPTS	
Facial Expressions	<p>F= Features (the parts of the face, an emotion is usually communicated by our mouth and eyebrows mainly)</p> <p>A= Act it (if you act the emotion you are more likely to get the correct facial expression. We can use Konstantin Stanislavski’s Emotional Memory to help us)</p> <p>C= Clear (make every facial expression clear not vague)</p> <p>E= Expressions (think how your face behaves for each expression it goes up for happy, down for sad, scrunched for angry etc).</p>
Body Language	<p>B= Bent over/Upright (a confident character is more likely to stand upright but a shy character might hunch their shoulders and hang their head)</p> <p>O= Open/Closed (a happy person is more likely to open up their body but a sad/scared person will try and protect themselves by closing it off)</p> <p>D= Dynamics (how fast does your character move)</p> <p>Y= Young/Old (is your character young or old but be careful you get young people who act like they are old and old people who act like they are young).</p>
Thought Track	<p>I= Inner Thoughts (what is normally kept hidden)</p> <p>N= No filters (no filter or censoring)</p> <p>S= Said out loud</p> <p>I= I (uses first person. We can use Konstantin Stanislavski’s Magic if to help us)</p> <p>D= Direct Address (said directly to the audience)</p> <p>E= Emotion and feeling words.</p>

I NEED TO KNOW:

Y7 History Knowledge Organiser: Unit 3 – Medieval Life.

The Church - It was the centre feature of the village. It was the law that everyone went to church on a Sunday so it was regularly visited. The villagers had to pay taxes or give crops to the church.

The Rectory: This was the small house, next to the church, that the Vicar lived in. He had his own field and could keep some of the taxes given to the church.

The Manor House: The lord or baron would live here. It was a base for the Lord to use to control the surrounding lands. These were the biggest houses in the village and richly decorated. The Lord would have his own field, which no villager could enter or hunt on without permission.

The Common: This was a fenced field in the village. It would hold all the animals for the villagers. This was a piece of land the king rented to the villagers.

The Village Green: The village green was a social point for the village. It would be on the edge of the village, and was a huge grass field where celebrations, feasts and tournaments would be held.

The Mill: The mill was an important part of farming, as this was where the crops would be ground into flour or wheat for cooking. The mill was owned by a wealthy member of the village who would let the villagers use the mill in exchange for some crops.

Fields: Fields were the central point of the village, as they were the source of food for the villagers. The Lord would share the land out for the peasants to grow crops on. The land would be divided into 3 fields of barley, wheat and fallow. A fallow field is a field where nothing is grown on for a year, in order to let the soil regain lost nutrients. Each year the fields would change what they are growing, this was called crop rotation

I NEED TO KNOW:

What Jesus taught that was radical.

Jesus was raised as a Jew. He preached a **radical** message that led to him having his own followers. These disciples devoted their life to him. When he died the earliest followers called themselves **CHRISTIANS**. This group eventually became separate from other Jews and Christianity developed from being a small sect to a massive world religion.
 Muslims believe Jesus is a prophet called Isa.

IDENTITY AND COMMUNITY	Incarnation Liberator / Saviour The Fall Authority
ULTIMATE QUESTIONS	Salvation Messiah
LIVING A GOOD LIFE	Social justice Commitment

The nativity stories about Jesus contain “signs” that Christians believe show Jesus was going to be a great leader- a Messiah. They believe that Jesus was God in human form- the **Incarnation**.

Jesus often clashed with the Jewish leaders of the day: the Pharisees and the Saducees.

- He claimed to be the Son of God and the Messiah
- He healed people on the Sabbath (the holy day of rest)
- He mixed with the outcasts in society. People like tax collectors and the sick.
- He preached about love. For example, his parable about the Good Samaritan was about loving your neighbour
- The Jewish leaders believed that Jesus had no **authority** to speak about “his Father in heaven” (God)

Crucifixion – Jesus was executed because of what he preached. Christians believe that he rose from the dead 3 days later. This **miracle** showed he was divine as well as human.

Jesus was radical because he preached about **social justice**. He reached out to groups in society that were considered as outcasts or “unclean”

Jesus was believed by Christians to have performed miracles. What is the miracle below?

Jesus used parables to reach his audience and explain ideas about God.

Christians believe that Jesus rose from the dead. This is called the **RESURRECTION**.

Words that won't go away!
When you learn French, you see that some words come up again and again. No matter what you're talking about they're there all the time. These are called high-frequency words. Because they occur so often they are extremely important. You need to know what they mean.
Focus on the high-frequency words in the Need-To-Know just as much as the topic words!

Mnemonics

One way of remembering new words is to invent a mnemonic: a rhyme or saying that sticks easily in the mind. Here's an example from the word list above, but it's best to make up your own – you'll find them easier to remember/harder to forget.

Zona Cultura

In most major Spanish cities, you will see many more flats than houses. Houses in the north of Spain can look very different from houses in the south. The north is green and lush and it rains a lot. The south is sunny and can be very hot, so houses are often painted white to reflect the heat.

Pronunciación

Remember, **ll** is similar to English: los ojos, el pelo
ll is a 'y' sound: me llamo, llevo

Pronunciación

Two vowels together are called diphthongs. Say them one after the other, applying what you already know about vowels, and you will get them right!
